To whom it may concern:

My name is Nahjee Holley. I am writing regard to my Father, Solomon Graham, an inmate at Berlin Federal Correctional Institute. I am concerned for my father's health. Covid cases are rising quickly and my family and I fear for my father's life. My father is asthmatic and has been recently diagnosed pre-diabetic. Everyday more people are acquiring this life-threatening virus and we fear that he will too. I plead that you please consider allowing my father to come home until the corona rates decrease. At the facility, my father has a high risk of acquiring the virus because of their limited access to masks and hand sanitizer. I am also concerned for the food being served to him. What policies have been implemented to ensure the safety of the inmates? I fear that the kitchen staff may not properly disinfect the areas used to prepare the meals or may not properly wash the food consumed by the inmates. My sister and I are both expecting babies and we fear that visiting my father can endanger us and the fetus's. I am aware that there is no cure, but I know that my father would be safer at home with his family.
